2013-2014

Up to your mid 20s your skin will keep itself hydrated and youthful through a constant process of repair and replenishment.

As you age, your skin's natural structure begins to decline and the rate your cells renew and replenish slows down considerably. You produce much less collagen, elastin and hyaluronic acid (the skin's natural plumper and hydration molecule), which causes the skin's elasticity, firmness and smoothness to decline. This results in fine lines and wrinkles forming. The menopause can have a dramatic effect on collagen levels accelerating this decline, falling by as much as 50% in the first 3 years post menopause.

However, do not worry, aesthetic medical treatments are available in our specialist Skin Rejuvenation Clinic whatever your age, which help revive and rejuvenate the skin without the need for surgery or injectable treatments.

These work in the deeper layers of the skin where cell renewal takes place, unlike beauty salon treatments, and complement our range of facial treatments that give a more even skin tone and smoother appearance (eg Microdermabrasion, skin peels and IPL Laser).

## Non Injectable Skin Rejuvenation Treatments

### Dermalux

Dermalux is the award winning, latest generation of LED Phototherapy, a non-invasive skin treatment which accelerates the body's own natural repair processes to improve a poor complexion, signs of ageing (including lines and wrinkles on the face, hands or body) sunburn skin damage, pigmentation and overall skin health.

Safe, convenient, painless and even relaxing, we harness the power of 3 specifically chosen light waves (red, near infrared and blue light treatment) that are absorbed by the skin to treat a variety of common skin conditions, such as Acne, Rosacea, Psoriasis, Eczema and Dermatitis and general skin ageing.

Many of our customers book frequent sessions as they love the effect it has on their skin to keep their complexion looking younger, glowing and clearer - much like a regular body workout, but for your skin. we are one of only 100 clinics and the only one in the South West, other LED Phototherapy machines do not compare which is why it won best treatment in the Aesthetic Awards this year.

Dermalux facials are greatly affordable at **£40** for 1 or a course of 6 for **£200**, and you can resume your daily routine immediately afterwards.

## RF Skin Tightening Collagen Facial

For firmer, tighter, younger looking skin that lasts up to 2 years.

3D Lipo Radio Frequency (RF) uses state-of-the-art technology to deliver controlled, focused radio frequency into your skin, gently generating the optimum level of heat to stimulate your skin cells. Stimulating the dermal cells in this way encourages new collagen to be produced. This in turn improves the underlying structures of your skin, causing it to tighten and lift. 3D Lipo RF safely achieves these results without any pain or recovery time, and gives natural, long-lasting results.

### Facial Skin Tightening:

- ✓ Tightens and lifts lax and sagging skin in the cheek, jaw and neck areas.
- ✓ Tightens and lifts skin in the eye contour area; under the eye, above the eye and above the brow.
- ✓ Tightens skin and smooths wrinkles.

Also useful for body areas such as upper arms, knees and décolletage. A course of 8 treatments weekly is recommended for optimal results. (Treatment does depend on existing collagen levels and those with very low levels may need more than 8 treatments, your therapist will advise).

### RF Skin Tightening Collagen Facial Prices

NO. OF TREATMENTS	1	COURSE OF 8
Full face	£100	£700
Lower face	£60	£400
Neck	£70	£500
Decollete	£70	£500
Forehead	£50	£300
Eyes	£60	£400
Upper arm	£80	£550

Add 2 areas together in the same treatment session and get the lower priced treatment half price.

Add a 20 minute Dermalux LED Photo-rejuvenation session after the treatment for further collagen stimulation for **£20** (instead of **£40**).

### Double Chin

At last, a solution! 3D cryo freeze to reduce fat by 30-40% followed by 4 RF skin tightening treatments for a tighter, sharper contour to the jaw line - **£275**

### Genie Facial Toning - 10 Min Face Lift

As we age, our underlying facial structure changes, losing volume from the mid face creating a "sad", more elongated face shape. Genie, 1000 times stronger than other facial muscle stimulation machines, offers a 10 minute face lift to tone the facial muscles and rebuild muscle volume in the cheek area, creating lift and plumpness and restoring facial shape. Like a gym workout for your face!

NO. OF TREATMENTS	1	COURSE OF 8	COURSE OF 12
Genie 10 minute face lift	£30	£200	£275
Add on to RF facial	£20	£120	n/a

## Aesthetic Facials Combining Different Therapies

### Consultation - Free Of Charge

Don't know which treatment is best for you? That's OK, we offer a free, no obligation skin consultation. You can discuss your individual needs and concerns and with your highly qualified Skin Specialist and together we can come up with an exciting facial programme to suit your time, budget and address specific skin concerns.

### Red Carpet Facial 1 hour - £75

If you have a special event such as a wedding or ball, this facial is designed to smooth, plump and hydrate your skin to make it illuminated and glowy on the big day. Perfect for brides too. This facial incorporates a microdermabrasion or Mango Peel (depending on your skin condition), a delicious enzyme firming masque followed by a 30 minute Dermalux session.

### 3D Complete Aesthetic Facial 1 hour 15 mins - £145

This is an amazing facial treatment combining all the latest aesthetic skincare technology bringing a complete transformation to your skin. A deep exfoliation gently removes the dead skin and debris on the outer layer of your skin, leaving smoother, cleaner, brighter skin. 3D RF will provide excellent results on skin tightening, lifting and firming. Followed by a collagen drenching gel applied for a plumping 20 minute session under the Dermalux. Add in a Genie 10 minute face lift at the start of your facial for just £20.
